Care + Maintenance

1. OUTDOOR STEEL POWDER COATING CARE

Care for your powder coated stainless steel & aluminium components by wiping when dirty with a damp cloth soaked in a solution of mild detergent (like Sunlight Liquid) and water. For coastal environments (within 200m of the ocean) it is necessary to make use of Marine Grade stainless steel SS316 and to wipe sea air condensation off of your furniture on a weekly basis. Avoid harsh chemical cleaning products and scratching with sharp objects as this can damage the powder coating.

2. OUTDOOR UPHOLSTERY FABRIC CARE

Care for your upholstery by regularly brushing off loose dirt with a soft brush. When dirty, spot clean using a soft bristle brush to scrub on a solution of water and mild soap. Allow the cleaning solution to soak into the fabric. Rinse thoroughly until all soap residue is removed and then air dry. Make use of weather covers when furniture is on uncovered patios or take removable upholstery indoors.

3. IROKO TIMBER CARE

For general cleaning, use a clean cloth to wipe down timber components with a solution of Rubio® Monocoat Exterior Soap and water. Allow the surface to dry.

For MAINTENANCE reapply Rubio® Monocoat Hybrid Wood protector every 6 to 12 months, depending on the level of exposure to the outdoor elements.

Clean as above with Rubio® Monocoat Exterior Soap. Rinse thoroughly until all the foam has disappeared.

Allow the surface to dry well (± 30 minutes at a temperature of 20 °C and proper ventilation).

Treat with the Rubio® Monocoat Hybrid Wood Protector in the same colour as your original application.

Apply the oil with a clean cloth. Allow a few minutes for the product to react. Remove any excess oil.

WARNING Cloths, saturated with oil, may spontaneously combust. Soak cloths in water after use before disposal.

4. DEKTON TABLE TOP CARE

Due to its practically zero porosity, the ultra-compact Dekton® surface is highly resistant to staining in day-to-day use and from chemical products, making it ideal for use as a table top for both inside and out.

For general cleaning, Cosentino recommends the use of Q-Action with a sponge or soft cloth. If this product is not available, the best option is to use a neutral soap (like Sunlight liquid) and water.

WARNING Do not mechanically polish the surface. Avoid using metal scouring pads. Whilst the table top material is incredibly durable, they can break when hit with heavy objects.
